- If your product malfunctions please switch it off and then back on again to reset it.

Pack Contents

- Power hub
- 25 tiles
- International Charger
- User Guide

Know Your Product

Connecting Glow Tiles

Using Your Product

To use the Connecting Glow Tiles, press the "TTS Power On" button on the top of the charging hub. The button will light up blue to indicate it has been switched on.

Connect any of the tiles to the hub to light them up. Once a tile has been connected to the hub, further tiles can then be connected either to the hub or to another tile which is connected to the hub.

There are 25 tiles, 5 red, 5 blue, 5 green, 5 yellow, and 5 pink. The user will not know which colour of the tile until it is connected and lit. The tiles are connected by magnets and will only connect one way.

Charging

- This product is supplied with a 5V 1A International charging adaptor.
- When the power hub reaches 10% battery life the power button will flash red to indicate it needs charging.
- To charge, connect the dc jack into the base of the power hub and then connect to the mains. The power button will light red to show it is charging.

NB: The product cannot be used whilst charging.

- When fully charged the power button will light green to indicate the hub is fully charged.
- To use, disconnect from the mains and remove the charging cable. Once the cable has been removed the power button will light blue.
- The product may take up to 1-2 hours to fully charge, this is if the battery has been fully discharged.
- Once fully charged the product will have life for approximately 3-4 hours in continuous use.

Battery Precautions

- This product is fitted with a rechargeable battery which is not user replaceable.
- DO NOT attempt to remove the battery packs.

Trouble Shooting

Problem	Solution
Tiles will not light up	Ensure the tiles are fully connected to the magnets correctly. The hub may need recharging, plug the adaptor into the hub to charge.
