

Gravity Jousting Ramp

User Guide

Cautionary and Warning Statements

- This unit is designed and intended for educational purposes only.
- Use only under the direct supervision of an adult who has read and understood the instructions provided in this user guide.
- Read warnings on packaging and in manual carefully.

Materials Included

- 5 plastic ramp parts

Setting Up the Ramp

Note: The best setup for a jousting arena is on a tile floor or a long countertop.

1. Find a flat surface and place the center piece of the ramp in the middle of the jousting arena with the flat side facing down.

Figure 1

2. Make an L piece for the ramp by placing a leg piece into the notch on a ramp piece (Figure 1).
3. Line the L piece up with the center piece so the center lines on the track are aligned (Figure 2).
4. Repeat Steps 2 and 3 for the other side to complete the ramp construction (Figure 3).

Figure 2

Figure 3

The Arena Host can be you, a helper, or a designated student. The Arena Host will provide the countdown to each joust, and the drop of the Arena Host's hand will signal the start of the joust. The Arena Host will also have the final say in regard to adherence to the rules and to any disputes that might occur.

Set up a single-elimination bracket based on the number of students in the class. Be sure to go through the jousting rules prior to the competition.
