

## Posttest

### Questions

- 1. What type of particle flows through an electric current?**
  - A. electricity
  - B. proton
  - C. electron
  - D. neutron
- 2. What type of materials allows electricity to flow through them easily?**
  - A. electrode
  - B. insulator
  - C. conductor
  - D. current
- 3. What type of materials does NOT allow electricity to flow through them easily?**
  - A. insulator
  - B. conductor
  - C. electrode
  - D. current
- 4. When was electricity first invented?**
  - A. 50 years ago
  - B. 200 years ago
  - C. 150 years ago
  - D. 400 years ago
- 5. What is the source of the battery's energy?**
  - A. kinetic energy
  - B. electrical energy
  - C. mechanical energy
  - D. chemical energy
