

Electricity Level 1

Pretest

Questions

1. What type of particle flows through an electric current?

- A. proton
- B. neutron
- C. electron
- D. electricity

2. What type of materials allows electricity to flow through them easily?

- A. conductor
- B. insulator
- C. current
- D. electrode

3. What type of materials does NOT allow electricity to flow through them easily?

- A. conductor
- B. insulator
- C. current
- D. electrode

4. When was electricity first invented?

- A. 200 years ago
- B. 400 years ago
- C. 50 years ago
- D. 150 years ago

5. What is the source of the battery's energy?

- A. mechanical energy
- B. electrical energy
- C. chemical energy
- D. kinetic energy
