

# Wireless Camera Kit for TETRIX® MAX Specifications

## Camera Specs:

Sensor type	CMD
Viewing angle	170 degrees
Reverse image	Selectable
Grid lines	Yes (can be disabled)
RCA cables included	Yes
Color	Black
Mount	Included

## Transmitter:

Wireless transmitter voltage	12 VDC
Transmit frequency	2,400-2,483 MHz
Demodulation method	FM
Video output impedance	75 $\Omega$ , typ.
Frequency response	6 dB bandwidth
Output frequency range	100 Hz-10 kHz
Transmit frequency	7 dBm
Effective transmit distance	5-12 m
Power source	< 1 W

## Receiver:

Wireless receiver voltage	12 VDC
Receiver frequency	2,400-2,483 MHz
Demodulation method	FM
Video output impedance	75 $\Omega$ , typ.
Frequency response	6 dB bandwidth
Output frequency range	100 Hz-10 kHz
High receiving flexibility	-87 dBm
Power source	< 1 W
